PANELDRIVE

4/5 channels
components
catalogue

Paneldrive – for motorized panel tracks.

Paneldrive 4/5 channels is the latest system from Trietex. Its slim design is almost fully hidden behind the rail and the panel runner. It is using a special shaped textile/plastic cord for the transport of the panels.

Gear sets are available for four and five channel rails.

Can be used with 24 V standard 24 DC power supplies / power supplies + remote receiver with 24 V stabilized power output.

Integrated mechanical limits with push buttons.

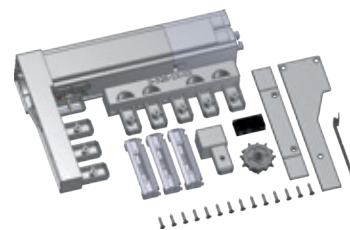

Key specifications:

- It is suitable for systems with lengths of up to 7 m and a max. load weight of 15 kg (depending on the max. load of the panel runner being used).
- Running at 67 mm/s.
